

JAPS MOVING AROUND HARBIN

Send Word To Russians They Expect To Occupy The City By Middle of April.

BIG FLANK MOVEMENT IS MADE

Chinese Report The Japs Have Sent Their Armies Around The Doomed City Where Russian Quarters Are.

(SPECIAL BY SCRIPTS-M'RAE.)

St. Petersburg, March 30.—According to a dispatch from Sitja, the Japanese column was reported as seen twenty-seven miles northeast of Shiping and seventy-four miles north of Tie pass. The report comes from Chinese sources, but it is probably means the Japanese are conducting a wide turning movement.

More Hostilities
St. Petersburg, March 30.—Dispatches from Manchuria indicate that there may be a resumption of active hostilities in the near future. A telegram from Harbin says the main Japanese army is within twenty miles of the Russian outposts. The Japanese proclamations have reached Harbin stating the Mikado's army intends to occupy Harbin about the middle of April.

Capture Vessel
Tokio, March 30.—The steamer Indus, bound for Vladivostok, has been seized by Japanese.

Peace Offer Is Indirect.

St. Petersburg, March 30.—Officially the authorities continue to deny stoutly that Russia has made any proposals to Japan. This is literally true, as Russia has only made known the negative conditions, leaving the intermediary to convey these conditions on its own responsibility to Japan.

It is now possible to announce that a step in the direction of peace actually has been taken. Russia has indirectly made known to Japan the negative conditions on which peace may be concluded—namely, no cession of territory and no indemnity—leaving Japan to determine whether negotiations can be begun on that basis. No reply from Japan has yet reached the Russian government.

Through what channel or channels Russia communicated with Japan is not revealed, but there is reason to believe that it was through the United States. It is practically certain that France and possibly Great Britain as the two allies of the bel-

ligerents and the United States as the country acting for Japan have been apprised of Russia's position.

Roosevelt May Be Mediator.

Rumors that President Roosevelt had tendered his good offices to both parties are incorrect. The president's friendly disposition and perfect willingness to undertake to open negotiations, however, are well understood, and without asking directly that they be communicated to Japan Russia could make known to President Roosevelt through Ambassador Cassini the conditions to which she could not agree, while thus giving Japan an opportunity of knowing officially what the basis of the peace negotiations must be.

Russia avoids the attitude of suing for peace or actually submitting proposals and besides places the United States and Great Britain and the powers generally in a position where they could offer Japan advice as to the reasonableness of the proposed basis. Having been apprised of Russia's position, Japan has two alternatives, either to decline absolutely to open negotiations on such a basis or indicate her own attitude. If the negotiations are opened Russia probably will be prepared to make broad concessions on collateral issues.

Says Indemnity Is Impossible.

The Novoe Vremya now for the first time admits the possibility of negotiations for peace, commenting on the efforts of the British and French press to prove that peace is advisable both for Russia and Japan. The Novoe Vremya declares that the payment of indemnity by Russia is utterly out of the question, as it would be a contribution tending to build up the strength of Japan and that Japan is not in a position to claim indemnity.

The paper asks whether diplomats "who did nothing to prevent war" now will turn their attention to bringing to a close terms advantageous to both combatants.

FOUR MILLIONS' WORTH OF BOOTY

That is What the Japanese Received as Their Share of Taking Mukden.

(SPECIAL BY SCRIPTS-M'RAE.)
St. Petersburg, March 30.—It is now stated the value of the war materials captured by the Japanese at Mukden is two million dollars.

PLANS RAILROAD UNDER A LONG STRIP OF THE OCEAN

French Engineer Would Run Trains From Paris To New York City Safely.

New York, March 30.—If the United States government can be induced to take the same views of the plans of M. Lecoq de Lobe, an eminent French engineer, as have the Russian and French governments, the next ten years will see the establishment of an all rail route from Paris to New York. M. Lobe arrived on the Kaiser Wilhelm der Grosse as a commissioner from the Russian government to this country to arrange for the neutralization of Behring straits. M. de Lobe took the first train he could get for Washington, where he will have an interview with the president. His account of the projected road is as follows:

Outlines His Plan.

"The plan is not in its infancy by any means. In Russia and France the road is all but established. We have already named it the Trans-Alaska-Siberian railway, and I have completed the plans for its construction. These plans have been approved by the French government. The interest of the French government is not territorial, but my plans involve the use almost exclusively of French capital. The Russian technical railways commission has seen the plan, and

adopted them unanimously. In fact, there is not an obstacle in the way unless it is here, and when we have submitted the proposition and given your government a chance to look it to it, I have not the slightest doubt your people will be as enthusiastic over it as we in Russia and France have been.

Must Tunnel Under Strait.

"The road cannot be built of course, without our tunneling under Behring strait. I am here as a commissioner of Russia to negotiate for the neutralization of the strait. I have the authority of the Russian government and letters from the most prominent people in France.

"The matter of tunneling the strait is a simple one. With modern appliances and the great strides engineers have made in recent years, the problem is simplicity itself. Remember, the strait is only 150 feet deep in the deepest places.

"The road will make a perfectly feasible all rail route from Paris to New York. We figure it will take \$150,000,000 to build the road and make the connecting links, but the money is ready the moment your government is willing to do its part."

(SPECIAL BY SCRIPTS-M'RAE.)

New York, March 30.—Fireman Samuel Little was killed and several firemen injured today by a cave-in of the subway at 168th street which burned yesterday. The firemen were carrying the hose from the tunnel where it had been used to extinguish the burning timbers.

DEMANDS FRANCHISES OF BIG OIL COMPANIES

Attorney General of Missouri Seeks to Curtail Concerns From Right to Do Business in That State.

(SPECIAL BY SCRIPTS-M'RAE.)

Jefferson City, Mo., March 30.—An application for a writ of quo warranto for the purpose of ousting the Standard Oil company, the Republic Oil company, and the Waters-Pierce Oil company of their franchises for doing business in Missouri, was filed in the supreme court by Attorney General Hadley. The supreme court issued the writ and made it returnable to the court in banc on April 11.

The application charges the companies with being in combination to control prices and the supply of oil in the state. "Recently the attorney general instituted a hearing before Judge Marshall of the supreme court to secure evidence on which to base such proceedings. The oil companies filed returns declaring the law to take testimony in advance of a suit to be unconstitutional, and the case was set for hearing on March 31.

Attorney General Hadley claims that publicly given account of that proceeding has brought letters to him giving information he desired with which to begin proceedings, and he instituted them direct in the supreme court. The proceedings before Judge Marshall will now be dropped.

CAPITOL TALK IS HELD TODAY

Senator McGillivray Makes His Demands Upon The Senate This Morning.

TO PRINT ALL OR NONE AT ALL

Other Matters of Interest Placed Before Both Houses For Their Consideration at Sessions Today.

(Special Correspondence.)

Madison, Wis., March 30.—Senator McGillivray held up the committee on capitol and grounds by objecting to the printing in the journal Cass Gilbert's reply to charges made by the Wisconsin architects regarding his plans for a new capitol. McGillivray said if "Cash" Gilbert's argument be printed those of the Milwaukee architects must likewise be printed. The matter was laid over.

Send Them Back

A batch of pure food bills was sent back to the committee to be revised into one measure. Senator Burns moved a reconsideration of yesterday's vote killing the old soldiers' exemption bill and asked it be laid

over a week. Hudnall objected to laying it over and an immediate vote was taken which resulted 12 to 19 against reconsideration, forever killing the bill.

Assembly Work

Assembly reconsidered the Alabama war flag return resolution on which an eloquent speech by Ties was made to return them without waiting for the consent of the Grand Army. Bills to pay \$300 each to Assemblymen Pierron and Michael G. Bohan for election contest expenses were passed.

Warner's Bill

Warner's civil service bill was favorably reported. The assembly voted for a session tonight and to adjourn until next Wednesday evening.

(SPECIAL BY SCRIPTS-M'RAE.)

Winipeg, March 30.—The third section of the homeseekers' excursion which left Toronto on Tuesday with settlers for the northwest, went into a ditch at Dryden, 55 miles east of

Rat Portage. The accident is said to be the worst in the history of the Canadian Pacific. All the doctors at Rat Portage have left for the scene. Railroad officials refuse to make any statements. About five hundred passengers were on the train.

OUTLOOK FOR A CLUB IS BRIGHT

MUCH ENTHUSIASM MANIFEST-
ED BY BUSINESS MEN

AT MEETING LAST NIGHT

Twenty Present Declared Themselves
Heartily in Favor of Taking Up
Project at Once.

Business men who have interested themselves in the project of forming a club and purchasing the Edw. F. field house and converting it into a clubhouse, held an enthusiastic meeting at the city hall last evening. Some twenty were present and William G. Wheeler acted as chairman. Without exception those in attendance declared themselves heartily in favor of the move and willing to affix their signatures to the permanent membership list.

New List to Be Secured.
Those who have placed their names on the old list secured about a year ago will not be held to any agreement. Instead the signatures will be verified and if there are any who wish to withdraw they will be allowed to do so. It is not thought that the number of those will be large and others who were not on that list can easily be secured to take their places. Only one hundred members are needed to make the project a success and the old list shows fully that number.

Committee Appointed.
A committee consisting of W. H. Greenman, George S. Parker, and Frank H. Blodgett was appointed to visit the original signers and secure the verification of their signatures as well as the new names available. The prospects for the establishment of the club are bright and from present indications the organization will be in possession of its property and enjoying the benefits thereof before many weeks have passed.

HOW ASSOCIATION RANKS IN STATE

Comparison of Junior Department
of Janesville Y. M. C. A.
with Others.

By the comparison of the figures in a statistical table showing the various relations of the Junior departments of thirteen Y. M. C. A.'s in Wisconsin, Janesville, according to the population of the city, holds a good position in the list. The total Junior membership of the thirteen institutions is 1,227, and Milwaukee with 253 is first in the list and Janesville ranks ninth with 66. In the number serving on committees the local association holds sixth place; the first place is held by Oshkosh. The largest number, 221, using the gymnasium are members of the Milwaukee organization, and Janesville here takes eighth position with 57. In the number of boys attending camp each summer the local Y. M. C. A. ties with Racine for third rank, each place sending twenty boys, while La Crosse sends the greatest number, 75. With one social during the past year Janesville takes sixth place together with Oshkosh, Waukesha and Green Bay, while the highest figures are reached by the Milwaukee Railroad association and Racine, which each had four. Thirty-eight is the average daily attendance of boys days in the local association, giving Janesville the ninth rank here with Milwaukee heading this list with 85. The Janesville Juniors have held 23 religious meetings during the year, and their total attendance has been 288, giving them fourth place in the list in which the first figure belongs and seventh in the latter; first rank in both is held by Milwaukee again with 33 meetings and a total attendance of 1,320. In three lists under the heading, "Bible Classes," it is shown that Janesville with one class takes fifth place, with 12 sessions held takes sixth place, and with 54 the total attendance takes seventh place. First honors in "Bible Class" are taken by the Milwaukee Railroad Association. According to figures which Mr. J. A. Ward has obtained there are 50,525 Junior members in North America, 26,005 taking physical work and exercise and 107 men are employed as secretaries of the Junior departments exclusively.

REGISTRATION IS NOT NECESSARY

Women Can Vote This Spring for
School Commissioner
Without It.

Janesville women can vote at the election next Tuesday whether they have been registered or not. This is the opinion of the attorney general when questioned as to the matter. His decision is as follows:

"Under the provisions of chapter 255, laws of 1901, women are authorized to vote at any election pertaining to school matters. This statute has been held to apply to the election of school officers. Such voters were not registered at the last general election, therefore do not appear on the registration list. But, under the provisions of said section 23, the inspectors of elections at each polling place on the day of election may revise the registration list by adding thereto the names of such persons as are known to them to be qualified to vote, or the names of such persons as shall be satisfactorily shown to be voters in the election precinct."

FREIGHT HOUSES CLOSE AT THREE

O'clock Every Saturday Afternoon,
According to Arrangement Made
by the Two Railroads.

In accordance with an arrangement made by both railroads the Chicago & North-Western, and the Chicago, Milwaukee & St. Paul freight-houses in Janesville will close at three o'clock Saturday afternoons. The new order goes into effect this present week and those who are employed at these places of business, are well pleased.

ILLNESS FORCES DAVE LEWIS TO RETIRE FROM "ROYAL CHEF"

D. L. Don, Who Was Here, With
Genevieve Day Last Fall Suc-
ceeds Him in the Role.

Dave Lewis, who has been identified with the title role in "The Royal Chef" ever since the original production in Chicago, and who appeared in Janesville twice during the present theatrical season, is no longer with that musical comedy. Illness is responsible for his retirement. His place is taken by D. L. Don, the eccentric German comedian who appeared in Janesville with Genevieve Day in "A Girl From Dixie," August 19 last. Don's capers with the piano and oration on "The Pivot" will be easily recalled by those who witnessed the performance. He is recognized as a comedian of great ability, particularly in the east. The title-role of the chef will be played by him during the Philadelphia and Boston engagements.

ELECTION OF ASSESSORS.
As the election of assessors is near at hand, and as the office of assessor is one of the most important offices in the election district. Would it not be well for the voters to see to it that the right man is elected to the office of assessor? It is your present assessor has done his duty, by all means re-elect him, as experience is a qualification that should not be overlooked. Experience will enable him to better perform his duties in every way, as it takes one at least a term to become familiar with the routine work of the office. An assessor should be a man of ability, force and good judgment, honest, fearless and painstaking, having uppermost in his heart, "Equal rights to all special privileges to none." You have such men in every district. Why not elect one of them to the office of assessor? "TAX-PAYER"

IN MEMORIAM

Joseph Bellamy Whiting
In sorrow the rector, warden and vestrymen of Christ church, in meeting assembly, adopt the following minutes for entry in the records of the parish:

On the morning of March twenty-seventh in the year of our Lord one thousand nine hundred five, there came to us the sad announcement of the death of our beloved and revered senior warden, Joseph Bellamy Whiting.
He had lived to an age when mortal life becomes but labor and sorrow, and even the strongest among the sons of men must soon pass away. None realized this better than did he. He had made known to us that he did not care to longer stay, "where storm after storm rises dark over the way," and that he was awaiting the breaking of "the golden bowl," that his mortal body might return to mother earth, and his spirit "unto God Who gave it."

Possessing a majestic presence and endowed with noble qualities of mind and heart, he commanded the love and confidence of all who knew him. He was earnestly interested in all that affected the well being of our parish, and especially its spiritual interests, and we shall greatly miss his counsel and aid, but the impress made upon our minds by his strong personality and consistent walk with God, while in association with us, will long afford light and counsel for our guidance.

In our sorrow that we shall see him no more as a fellow member of the kingdom of God upon earth, we rejoice in this, that he accepted and kept the faith, once for all delivered to the saints, and fought a good fight, until he finished his course in confidence in this faith, and in communion with his Savior in His church, established by Him to keep this faith and be the pillar of the truth "even unto the end of the world."

Let these things console the surviving members of his family to whom we can only tender assurances of sympathy.

DOWNWARD COURSE BORNE BY MARKET

Report of Wheat, Corn, Oats and
Provisions—Conditions in
New York Market.

New York, VHEAT.—While there has been some irregularity, the general course of the market has been downward under good weather, bearish new crop advices, a rather larger old crop movement than anticipated, bearish estimates of the Argentine crop, and the growing impression in many circles that wheat must go to an export basis before the new season fairly opens, barring unfavorable accounts from the growing crop later in the season or a poor start with the spring wheat area.

The decline has been interrupted once or twice by fears of cold weather in the Southwest, which has caused covering by the big short interest in July, and also by a renewal of talk of a bull deal in May, which in recent instances appears to be credited to leading elevator interests, rather than the old Wall Street pool. Argentine wheat shipments are running heavy, and there seems little reason to expect demand for wheat at anywhere near present prices. The flour trade is reported to be in an unsatisfactory condition. We do not look to see any further decline of moment, however, until after the spring wheat crop is pretty well seeded. The wheat which is of most interest to the big trade interests in any product, and as a season is the next crop, and, as a rule, the interest of trade people is to have the price low during the first part of the marketing season. Consequently it would be good policy on the part of these interests to assist in keeping prices at an attractive point until after planting is practically completed. In such an effort they would undoubtedly receive plenty of help from shorts, for we are not going to have perfectly satisfactory weather all the time, and factory weather all the short interest in July increases. We are favorable in a general way to the opinion that American wheat will go to an export basis this summer, barring unforeseen accidents to the crop, but for the immediate future we would prefer to buy for a turn on any approach to the low level of the last week than to sell short at present figures.

CORN.—Corn has showed surprising steadiness, considering the break in wheat, and dropping off in the export demand. For the week prices are only about half a cent lower. Receipts now seem to be falling off a little, and recent advices report small country acceptances, forecasting still smaller movement toward the end of the month. The export business diminished at the high prices of the week, just as speculative pressure increased, but the market got oversteered on the decline of a little over 2 cents from the top and rallied quite easily on a renewal of bull support. As we said last week we would take profits long corn on any approach to the export market for May in Chicago, but it also appears to us that the market ought to be a good buy anywhere around 48 cents for the same position.

OATS.—Oats have been relatively easier than corn. The cash situation does not appear to be shaping up as well as some had expected, and the market is not attracting an increased popular demand for long account, while the short interest that had accumulated is slowly being reduced. At present prices, it would seem, therefore, as if known conditions were about discounted, and the proper policy would seem to be to wait for a further break before buying.

PROVISIONS.—Provisions have reflected the slightly easier tone in course grains and full receipts by losing a little of the gains of the previous week, and closed about 2 1/2 points net lower. There would seem very little opportunity for further declines, and we would buy on all weak spots.

NOBLE BILLS ON THE DOOMED LIST

This is the Opinion at Madison Rel-
ative to Those Medicine
Measures.

[SPECIAL TO THE GAZETTE.]

Madison, Wis., March 30.—The obnoxious anti-patent medicine bills, most of which were introduced by Dr. Noble of Eau Claire, are sleeping quietly in committees of the legislature and no aggressive effort seems to be in prospect for pushing them in any direction other than perhaps toward indefinite postponement. From present indications it seems probable that these bills will continue to baffle in committee boxes until the general spring cleaning takes place at the close of the session, when they will be reported with a few hundred other relics of no merit and become members of the final grand community killing. These measures are directed against patent and proprietary medicines and it has become established in opinion generally here that they were inspired out of the desire to monopolize the field by and for the exclusive benefit of the practicing physicians who support drug stores and perhaps get a "rake-off" by prescribing more or less expensive prescriptions. Some of the bills require that no patent or proprietary medicine be sold in this state unless clearly and plainly labelled with all their chemical ingredients and manner of composition. This at first thought seems a fair and plausible requirement, designed in the interest and protection of the consumers, but it is now known that the result would drive patent medicines out of the state and leave the physicians free to work the field exclusively with their calls at so much per and their Latin dose prescriptions. Many people when afflicted with a bad cold or other minor ailment go to a drug-store and procure some inexpensive and simple remedy there without calling a physician and paying for the professional call and the additional expense of the prescription. If manufacturers had to tell the secret of the composition of their medicine, which they believe to be a valuable discovery, they would remain out of Wisconsin with their articles, rather than destroy their property by publishing their business secrets abroad. Thus the local doctors would have the monopoly which some of them who caused Senator Noble to introduce these bills desire. The only voice heard from against the bills thus far has been from the state convention of the Wisconsin Press association here recently and from the new Wisconsin Daily Press organization formed not long ago in Milwaukee. These are opposed to such legislation because it would tend to reduce valuable advertising business and thereby work a commercial hardship. Some of the most reputable physicians of the state have communicated to members of the legislature their opposition to the bills, for the reason, as they say, that they are not dependent for their practice upon knocking out the competition of the patent medicines. They declare that the better class of physicians have no competition with patent medicines and that it is only the worst kind of practice that is affected by these prepared remedies. Therefore, it appears that it is the less worthy and substantial practitioners that desire such legislation.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; heartiness, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine stains the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, dependent upon the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Klinger & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Klinger's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE SPRING ELECTION.

The spring election, a few days ahead will determine not only the complexion of the council for the next year, but will also decide whether the business reform movement inaugurated two years ago will be maintained. It is a well-recognized fact that the late mayor Wilson was in hearty sympathy with this movement, and that alderman Matheson, the republican candidate for mayor, was one of his most staunch supporters.

While the Municipal League accomplished its purpose, so far as starting the reform movement is concerned, and is no longer recognized as an active political organization. It remains for the public to say whether the good work shall be continued, or whether the management of public affairs shall be permitted to drop back to the old level.

Reforms of every character require more than spasmodic effort, and more than simply a desire to have them perpetuated. The proposition which confronts Janesville tax payers this year is a business proposition. Mr. Matheson stands for a clear and wholesome business administration, and his election to the office of Mayor means that back of him is a constituency which has not forgotten the old regime, and which does not propose to make any retrograde movements. He should be elected not simply because he is a republican, but because he stands for the same reforms which were so popular two years ago. Many important questions will come before the council during the next two years. The office of Mayor is an important office, and Mr. Matheson is well qualified to fill it. He should have the support of the taxpayers without regard to politics.

The Rock river is entering a protest against being curbed by dams just at present. Once a year the old stream rises in its glory and shows what it can do and the rest of the time it is docile enough.

Spring weather brings on spring fever and thoughts of the Fourth. Why not start planning for the celebration now and not be rushed at the last end.

The chief of police has begun his crusade upon people who ride bicycles on the sidewalks. This ordinance is to be enforced.

There is not much can be said in favor of rainy days beyond the fact they are conducive to good results in the harvest field later.

There is no question that someone is responsible for the proposed Ra-

PRESS COMMENT.

Necronal Times: It will be well for our people not to shed their fannels for a while at least. In 1903 we had five inches of snow on April 21. Three inches April 10, 1904. Four inches April 10, 1897. Four inches April 1 and 5, 1895. Two inches April 1, 1899. Four inches April 12, 1900. Two inches April 18, 1901. Seven inches April 7, 1902. Two inches April 14, 1903.

Milwaukee Free Press: J. F. Sweeney, proprietor of the Grand Hotel, Janesville, was registered at the Davidson yesterday. "The sugar plant had a successful season and no difficulty has been experienced getting all the beets needed in that part of the country," said Mr. Sweeney. "The factory is valued at \$125,000, and was moved there from Dresden, Conn., by Mr. Davidson, who is the sole owner. I believe the farmers will continue to raise enough sugar beets to supply the factory, as they have been well satisfied with the results of these crops so far." (The reporter must have misunderstood that valuation.)

Superior Telegram: At Dixon, Ill., an old fashioned religious revival has just closed and among the results, five dancing clubs have disbanded, and several thousand people have taken the oath not to frequent bar rooms and not to have anything to do with dancing parties or card tables. The famous Kendall club, a charitable organization, which has raised several thousand a year for charity, has voted not to hold any more dances and to give to William A. Sunday "the baseball evangelist," \$300. During the revival three bartenders were converted, a number of gambling dens were closed and gambling outfits were demolished. At the close of the meeting a basket collection was taken for the evangelist and the people of the tabernacle gave him \$2,750 for his four weeks' work. During the four weeks of the meeting it is estimated that there were at least 2,000 conversions.

Milwaukee Journal: Red hair has seemed always to be the subject of ill-feeling jokes—just why, very likely no one knows. Yet, despite the jokers' prejudice against auburn locks, there are few things coming into higher recognition for beauty than the red-headed girl. She is one of the questions of the day, from which there is no getting away any more than from the white horse. She has ever been with us and ever will be; she has a perfect right to exist and to have all the belated homage that men choose to pay her. There is no suppressing the fact that women with red hair are brighter and more ambitious than their blonde and brunette sisters, and have played more prominent parts in the world's history. Helen of Troy, Joan of Arc, Elizabeth of England, Mary Stuart, Anne of Austria, Empress Eugenie and many others had red hair and did not blush for it and none blushed for them. Whether or not much has been said in their favor, in reply to the ceaseless quips against them, it is a fact that red-haired women have an almost unflinching fascination for men, and red-haired old maids are almost unknown.

Chicago Chronicle: John D. Rockefeller having offered a gift of \$100,000 to the American board of commissioners for foreign missions, which is a Congregational society, a number of Congregational ministers located in Boston and other parts of New England have petitioned the board to refuse it on the following grounds: "The Standard Oil Company, of which Mr. Rockefeller is the head, stands before the public under repeated and recent formidable indictments in specific terms for methods which are morally iniquitous and socially destructive, and the acceptance of such a gift involves the constituents of the board in a relation implying honor toward the donor and subjects the board to the charge of ignoring the moral issues involved. It is characteristic of pharisees that they confound moral distinctions, that they let righteousness escape at the bung and stop it at the spigot, that they tithe mint, anise and cummin and neglect the weightier matters of the law, and that they are always trying to get a mote out of somebody's eye while they have a beam unnoticed in their own. This is what all the ministers who got up that petition. The Standard Oil Company does business on the same principles as any other business company or person has done it ever since the days of Adam, and the only reason that it attracts the attention and excites the hatred of pharisees is that it does business on such a large scale.

THIS MACBETH NEVER CRIED "HOLD, ENOUGH!" And He Paid a Fine for Drunkenness in Municipal Court This Morning.

Charles Macbeth paid a fine of \$2 and costs for drunkenness in municipal court this morning. Like the notorious king of Shakespearean lore, he was not in favor of anyone's crying. "Hold, enough!" The "Double, Double!" of the witches was more to his fancy.

Man a Late Comer.

Seventy-five million years is an estimate of the age of fishes; 25,000,000 years ago the huge amphibious four-armed. The dinosaur lived probably 15,000,000 years ago, and about 10,000,000 years later the primitive horse appeared; and still no evidence of man. So it will be seen that man is a late comer on the earth, when looked at in the light of geologic time.

BOOM IS COMING VERY SHORTLY

JANESVILLE IS TO EXPERIENCE A REAL FORWARD MOVEMENT.

EXPERTS VISITED THE CITY

Express Themselves as More Than Pleased with the Opportunities for Development.

"Janesville is promised a genuine boom, a movement in all industries, particularly in real estate." This was the statement of a prominent business man this morning. "Janesville is ripe for such a boom," said another large property-holder. "Everything is ready for it. Madison, Rockford, Beloit and other cities adjacent have had it in the past few years and now comes Janesville's turn. I expect the boom will open with the spring season and will be a hummer. I have several good offers from outside real estate men for property I am interested in and if they should decide to come here, something would be doing all along the line."

Talk of Boom
The talk of a boom seems to be heard on every hand. Janesville has come to the front with the establishment of a beet-sugar factory and the great increase in money in actual circulation in the county. Last season the factory had thirty-two hundred acres of sugar-beets delivered at their factory; this season the total will be nearer fifty-five hundred. A rough estimate places this at a cash valuation of over a half million dollars with the extra salary list for a hundred and twenty men to run the factory at some two hundred thousand dollars more. All this comes into the coffers of the county banks, principally the city through the medium of the stores. Manufacturers are looking to Janesville with envious eyes and closely watching its progress. Both the Chicago, Milwaukee & St. Paul and the North-Western roads have sent word to their agents to send data concerning the city, so that the city may be boomed. The Business Men's association is doing all in its power to locate new factories and several are in view.

Circus Headquarters
The talk of the winter quarters of the Forepaugh-Sells circus being removed from Columbus, Ohio, to Janesville has become something more than talk. The location in Spring Brook for such a set of quarters is ideal and all this project needs is a little pushing to make it a certainty. The new fire station in this section of the city, the talk of dividing the third ward into another ward, thus marking a new era in the city life, all tend to show that something is doing.

Boomers Arrive
For three days last week a firm of Indianapolis boomers spent their time in thoroughly investigating Janesville. They were delighted with the city and its prospects and made offers on several valuable strips of property which owners hold at fancy prices. They stated at that time that they thought Janesville had the best prospects for a boom of any city in southern Wisconsin. These men make it their business to boom cities and subdivisions and came to Janesville to see what could be done here. They left last Saturday with the understanding they will return later to look matters over more thoroughly. Meanwhile the real estate men of Janesville are alive to the proposition and their advertisements of offers can be found in the classified ad column of every issue of the Gazette.

The Chautauqua
The proposed establishment of a summer Chautauqua also means a boom, a certain boom that is not to be depreciated. Such a movement would bring many thousands of people to the city during the seasons of the Chautauqua and many of them would find Janesville a good place to live and perhaps move here. The establishment of a recreation park along the river such as is now planned in connection with the Chautauqua would also boost the city in a certain way.

Street-Cars
The improvements proposed for the street-car line, the laying of new rails and better service, also helps build up a community. Contractors report that the work in view for the coming year is really more than they hoped for. Another indication of boom times. Interurban traffic between Rockford, Beloit and Janesville continues and when the council grants the road the parcel freight franchise it will mean a boom in the trade at the Janesville stores.

OBITUARY

William Cunningham
A message received by Mrs. Cornelius McGinley last evening conveyed the sad tidings of the death in Clinton, Iowa, Tuesday evening of her brother, William Cunningham. Deceased resided in Janesville many years and for some years conducted a meat market on the Milwaukee street bridge. He served in the fire department and was at one time city marshal of Janesville. The remains will arrive here early tomorrow morning and the funeral will be held from St. Patrick's church at nine o'clock in the forenoon.

John Foley
John Foley died at the residence of his sister, Mrs. Frank Thompson, 151 Gold street, shortly after four o'clock yesterday afternoon. His death was believed to have been due to a stroke of paralysis from which he suffered thirteen years ago. Mr. Foley was formerly employed as a switchman of the North-Western railroad. He leaves one sister, Mrs. Thompson, and a brother, Thomas Foley of Kansas City.

Funeral services over the remains of the late John Foley will be held tomorrow morning at 10:15 o'clock from St. Patrick's church. Interment will be made in Mount Olivet.

FARMERS MEET TO DISCUSS PROBLEMS

Pertaining to Sugar Beet Culture and Organization — Attendance Not as Large as Anticipated.

Mr. Crowley of Baraboo, organizer of farmers' equity societies, and Prof. F. W. Wolf of Madison were the speakers at the meeting of the Rock county farmers called in the assembly room of the city hall by the Beet Growers' association this afternoon. Owing to the fine weather and the spring work on the farms the attendance was rather small, there being only about twenty present.

Dr. H. Burdick of Milton Junction called the meeting to order and the forenoon was devoted to an informal discussion of sugar-beet culture and testing. Acreage is being contracted for at Milton and some of the other points only through the branch associations of the growers but there are other sections of the county where each individual grower is acting independently of his neighbors.

LOCAL NEWS IN BRIEF.

Between Baraboo and Chicago: Mr. and Mrs. Peter L. Myers visited the Ringling Bros' winter quarters in Baraboo Tuesday. Mr. Myers is talking with several of the men in charge learned that they take it as a foregone conclusion that the winter quarters of the Forepaugh-Sells circus of which the Ringlings are now the managers are to be moved from Columbus, Ohio, to some point between Chicago and Baraboo. If Janesville bestirs itself and makes an effort in the right direction there seems to be no reason why they should not be located here. A site in Spring Brook with the excellent railroad connections would be many times more advantageous than the present quarters of the Ringling circus.

Keeping Tab on Boys: H. R. Rawson, state agent of the Waukesha Industrial school, was in the city today to inquire into the conduct of one of two of the Janesville youths who have been allowed to return home on parole.

APPROACHES THE HIGH MARK OF '04

ROCK RIVER LESS THAN TWO INCHES BELOW IT.

JEFFERSON DAM GOES OUT

And Hundreds of Acres of Land in That Vicinity Are Flooded—Stream Falls at Watertown.

Rock river rose several inches during the night and this morning was within an inch and three-quarters of the high mark of March 21, 1904. The water has moved up First street almost to the intersection of Park street.

Stopping Over Abutments
The stream is stopping over the abutments of the Jackson block and touches the bases of the window sills of the basement floor. Riley's bakery on South Main street was compelled to cease work the first of the week. In the southern portion of this city the electric park and other low-lying sections are flooded and the river is only one and a half feet below the street railway bridge.

Jefferson Dam Goes Out
The chutes of the Jefferson dam in Rock river have gone out. Hundreds of acres of land in the vicinity of the south and east are flooded. The flood is the most serious in many years and further damage is threatened to the dam.

John Selfert, Jr., hastily rescued his sick wife from his home on the south side just as the water was creeping into the floor of the room where the woman was confined.

The Rock river bridge in that vicinity has been condemned. Traffic over the bridge crossing the Crawford river west of the city has been suspended and the structure is seriously damaged.

River Falls at Watertown.
This morning the special committee consisting of the mayor, city engineer, and other officials, to take steps to protect property in case of unusually high water, became alarmed and Engineer Kerch communicated with Watertown. He learned that the river had fallen a half inch there since last evening. Observations here during the day fail to note any increase in the volume of the stream and barring rains and other unforeseen contingencies the water may rise no higher.

BANANAS RECEIVED BY THE CAR LOADS
Fast Transportation Methods Employed in Supplying Season's Produce.

Direct from the tropics in two brief stages is the method employed in transporting fruits and vegetables by the large wholesale commission merchants. This morning a carload of bananas was received by the Janesville branch of L. S. Lang & Co., which was transferred from the steamer at New Orleans less than sixty hours previously. The fruit is grown along the gulf coast of Central America, from whence it is transported by fast freight steamers from Cuba, British Honduras and other ports to New Orleans, reloaded in special fruit cars and hurried by fast express trains to the north.

This quick method of shipping enables the fruit to ripen to a fuller extent and also to acquire a larger size. The carload just received is known as the first quality size. This firm is also supplying the local market with asparagus, cucumbers, tomatoes and other green vegetables from the Torrid zone.

LAST OBSEQUIES OF DR. WHITING
Funeral services over the remains of One of Janesville's Most Honored Men.

The remains of the late Dr. Joseph Bellamy Whiting were tenderly committed to their final resting place in Oak Hill cemetery this afternoon. Prayers for the family were said at the residence of Mrs. E. V. Whiting at 1:30 o'clock. The funeral services were held from the Christ church at two o'clock, Rev. Barvington officiating. The honorary pallbearers were: Hamilton Richardson, Ogden H. Feathers, Alfred A. Jackson, Stanley B. Smith, Edward G. Harlow and Volney Atwood. The pallbearers were: Dr. Pember, Dr. Palmer, Dr. Buckmaster, Dr. Gibson, R. M. Bostwick, Jr., and Dr. C. D. Stevens. Dr. Whiting was one of the three remaining members of the Loyal Legion in this city. The two left are Dr. S. B. Buckmaster and William Ruger, Sr.

CHAUTAUQUA IS A CERTAINTY NOW

MEETING HELD LAST NIGHT FAVORS THE PROJECT.

TO ORGANIZE ON FRIDAY

A Move in the Right Direction Taken Last Evening at the Myers Hotel.

Janesville is now to be assured a ten days' Chautauqua. This was the decision of the gathering of representative business men of Janesville who met last evening in the parlors of the Hotel Myers to discuss the proposition. It was an ideal meeting, non-sectarian in nature, yet composed of representatives of every church in the city. The plan of holding a Chautauqua here for ten days, beginning July 25th and lasting until August 6th, was fully discussed and it was the sense of the meeting that such a gathering should be held. After taking up all phases of the situation the meeting adjourned until next Friday evening at eight o'clock, when a meeting of all persons interested in such a movement will be held at the Myers house and formal steps taken towards organizing the Chautauqua Park association.

Are Enthusiastic
The gentlemen present last night are enthusiastic. Mr. Holbrook would place the Chautauqua, answered all questions and explained that what he wanted was a five-year contract that twelve hundred season tickets at one dollar and fifty cents each would be sold, this money to be used in payment for the talent secured for the gatherings. He would then require a half of the gross receipts of the meeting as his share and the association to take the other half. In several cities where he is now interested in the annual receipts are often in the neighborhood of eight hundred dollars and even more. The program will consist of the best speakers possible for the money and will consist of the most prominent speakers on the public platform today.

The Grounds
The grounds of the proposed Chautauqua are to be located at the western end of the street-car lines, at the end of Elgin avenue on the river side. It will be accessible by both river and street railway and when improvements now planned are completed will make an ideal spot for picnics for both Sunday schools and societies when the Chautauqua is not in session.

Sweet potatoes, 6 lbs., 25c.
Home-made bread, the old-fashioned, sponge-raised kind, 4c loaf.
Cottage cheese today, 5c ball.
Garden seeds, best grown, 3 papers for 5c.

Wire frying baskets, 10-in., 10c.
Wire extension strainers, 10c.
Mouse traps, 3c each.
Largest glass lemon squeezers, 10c.

Willow clothes baskets, 40, 50, 60 and 70c each.
Kitchen bouquet, 25c bottle.
GRUBB PRODUCE CO.

SHOE-DEALERS of the country are hearing favorable reports of this latest product which bears the stamp of Janesville. The company has perfected and is running its entire factory at this time on their new seamless blucher shoe, which is an innovation in the perfect shoe manufacturing by this concern, while wide in their scope, are confined to the one idea of seamless, perfect-fitting oxfords, dress and work shoes, farm and hunting boots. All are covered by numerous patents and others are pending in the United States patent office. The letters received in each day's mail from both dealers and satisfied wearers indicate the growing popularity of scientifically built footwear. The principles upon which the models are built are a result of several years of careful research and observation. The mission of each one of the fifty-two bones of the foot is accounted for and allowance is made for the equilibrium of the body. In walking a perfect balance must be maintained and such is allowed in the foot and ankle where Nature intended, relieving the hips and shoulders of extra exertion. Unlike ordinary shoes, the sole is modeled after a perfect impression of the foot and every one is built on a special ball balanced last, bringing the two terminals of the arch of the foot on a dead level, which distributes the weight of the body to the arch of the foot, thus giving perfect balance and poise to the body by standing and walking, as the weight is not all on one side of the foot and heel as is shown by the tendency of the ordinary shoe to wear out on one side only.

It was found that when all the motion was accounted for and friction eliminated there was no cause for perspiration of the feet and undue weariness and the absence of all seams relieves the binding of the insole. A false seam is used around the shoe to give the correct appearance and in its entire manufacture, in conforming to hygienic principles none of the style and gracefulness of the foot is sacrificed. No mail order nor individual work is solicited, but considerable number of single pairs are designed for various shoe dealers throughout the country who have some customer whom they find particular difficulty in fitting. Then, too, there are numerous orders from persons in sparsely settled districts who have learned of the seamless shoe and cannot be supplied by their local dealers.

The seamless blucher upon which their factory has been working since last January is made in all the popular leathers including velour calf, box calf and vici kid. The trimming which comprises the lace and hook stay comes in corona, patent calf, matt kid and monkey-skin, has a vamp tongue, making the complete shoe entirely from one piece of leather which allows it to fit snugly to either a high or low instep and its construction will not permit the slipping of the heel while walking whether tightly or loosely laced.

Where the product of the Western Shoe Co. is known the dread of "breaking in" new shoes is forgotten. This season a larger field will be covered with their product, indications pointing to a test of the capacity of their new busy plant.

EMPHATIC TALK

The Kind That Carries Conviction to Every Janesville Reader.

Conviction must follow such emphatic proof as is given here. The testimony of Janesville residents should satisfy the most skeptical. Here is a Janesville case. Read it and see if doubt can exist in the face of this evidence.

Mr. E. T. Fish, of 335 Ravine street, proprietor of the Fish Dray Line says: "When I was twenty years of age I fell injuring my back, and ever since that I was troubled more or less with a dull aching pain across the loins. It never laid me up but it was often painful and annoying. Of late years I have gone to a physician, every six months and had myself thoroughly examined under the impression that there might be something wrong with my kidneys. The diagnosis always resulting in the physician claiming these organs were sound, but as the pains existed when I happened to notice in my Janesville papers that Doan's Kidney Pills were guaranteed to cure just such troubles I procured a box at the People's Drug store and took them. Doan's Kidney Pills are a good preparation. My back has not ached since I used them. I have heard others speak very complimentary of them and if I did not know their merit and required such a medicine I would consider it a favor if some one suggested their use to me. For this reason I endorse them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

OUSTS PANAMA CANAL BOARD

ADMIRAL WALKER OBEYS TAFT

Secretary Urges the Naval Officer to Send Official Notices of Retirement to the Chief Executive Without Delay.

Washington, March 30.—The isthmian canal commission was wiped out of existence late Wednesday afternoon, when each member tendered his resignation, to take effect at once. Admiral Walker collected the resignations of his five colleagues on the commission, added his own, and forwarded them all to Secretary of War Taft. The dissolution of the commission, which has been daily expected since the adjournment of congress, was precipitated by a flat request for the resignation of its members. The commissioners had refused to accept hints and announcements made through various semi-official sources of impending changes. They several days ago reached a conclusion to await a formal demand for their resignations.

Resignations Are Demanded.
Shortly after noon Secretary Taft sent a letter to Admiral Walker, chairman of the canal commission, asking him to tender his own resignation and secure those of his associates.

It was explained that this action was necessary in order that a contemplated reorganization of the commission might be effected. No regret was expressed at the exigencies which made the demand imperative.

Following is the text of the Secretary's letter:

"The President directs me to ask the members of the commission to hand in their resignations in order that he may have a free hand in reorganizing the commission. Please wire General Davis, requesting that his resignation be forwarded."

Obeys Taft's Order.

Admiral Walker at once complied with the demand made by Secretary Taft. He informed the other members of the commission and the little batch of resignations was soon collected and on its way to the war department.

The President has been giving much consideration for more than a month to the selection of new canal commissioners. He was forced to make an announcement at the White House that because of delay in receiving replies to tenders of positions on the commission it is not now believed that the names of the new members can be made known before he leaves on his southern trip. He said the announcement may be deferred until he has been gone a few days. It will be made at the earliest possible date.

Shontz May Head New Body.
Theodore P. Shontz, president of the Clover Leaf railroad, running from Toledo to St. Louis, has been selected as chairman of the reorganized canal commission. He has not finally accepted the place, but it is believed he will do so. He is now a member of Secretary Morton's party on the dispatch boat Dolphin.

Judge Charles Magood will be made a member of the commission and serve as governor of the canal zone. After July 1, he will also discharge the duties of American minister to Panama.

J. F. Wallace, at present chief engineer of the canal, will be made a member of the commission. Two additional members must be officers of the army and navy, either on the active or retired list. Colonel Clarence E. Edwards, now chief of the insular affairs bureau, is strongly suggested as the army representative.

No Reappointments Likely.
The other two members will be engineers. It was expected the president would reappoint William Barclay Parsons of New York and Prof. Burr, but this is now regarded as unlikely.

It was the original intention of the president to have the commission composed of but three members after its reorganization. He requested legislation from congress reducing the membership of the commission, but this failed. He then construed that he had authority to reduce the membership himself. Attorney General Moody rendered an opinion that the Spooner act fixed the membership at seven, and that this could not be changed except by act of congress. The president abandoned his idea of seven members. The necessity of finding four additional members has increased the delay in announcing the reorganization.

The retiring commission was appointed early in 1904. The selection of Admiral Walker as chairman was forced upon the president by Senator Allison. There were all manner of discussions among the members from the beginning.

The new canal commission, when appointed, will act directly under the secretary of war's supervision, as has been the practice since the first canal zone government bill failed.

Secretary Taft has been informed that William Nelson Cromwell has succeeded in buying for the government all but five of the 275 shares of Panama railroad stock still outstanding. At the request of the president, Secretary Taft has formally thanked Mr. Cromwell for his valuable services in the matter.

THE SNAKE LAUGHS HIMSELF TO DEATH

"Please don't eat me!" said Mr. Frog as he was grabbed up by Mr. Snake. "Well, I am really not hungry," said Mr. Snake, "and I'll make you a proposition. If you will tell me a good funny story, I will let you go."

So Mr. Frog sent for all his friends, and he gave each of them a tickle stick. Mr. Snake stretched himself straight

"Let me see," said Mr. Frog, "out on the ground, and there was a long row of frogs with tickle sticks on each side of him."

"Let me see," said Mr. Frog reflectively. "Ha! ha! ha!" laughed Mr. Snake and all the frogs tickled him with their tickle sticks.

"Once upon a time," said Mr. Frog, "Tickle him! Tickle him!" he cried to the frogs. "There was a man."

"He! he! he! he! he!" laughed Mr. Snake. "He lived in a little red house," said Mr. Frog. "Tickle him! Tickle him!"

"Ho! ho! ho! ho! ho!" laughed Mr. Snake. "On a hill," said Mr. Frog. "Tickle him! Tickle him!"

"Hi! he! he! he! he!" laughed Mr. Snake. "And a lightning bug flew in the window," said Mr. Frog. "Tickle him!"

"Hi! hi! hi! hi!" laughed Mr. Snake. "And set fire to the house," said Mr. Frog. "Tickle him! Tickle him!"

"Hahaha! hahaha! hahaha!" laughed Mr. Snake. "And the man put out the fire with a bucket of soup," said Mr. Frog. "Tickle him! Tickle him!"

"Now, this was so absolutely funny to Mr. Snake and the frogs jabbed him so fiercely in the ribs with their tickle sticks that he went into regular spasms of laughter, twisting up into knots and squirming around on the ground until he got tied up so that he was simply choked to death."

All of which shows that you should never let any one tickle you when he is telling a funny story.—Detroit Journal.

An Animal Story For Little Folks

DON'T TRY TO FOOL EVERY ONE

"Look here," said the lion one day to his tailor, the chimpanzee, "you are the worst tailor I ever had. Just look at these trousers you made me last week. I just wore them down today to show you how miserably they fit, or rather, how they don't fit. Why, they are big enough around the waist to put

"I KNOW YOUR MAJESTY'S APPETITE," another fellow in just my size. How in the name of goodness did you ever expect me to appear in the courtroom with such things as these?"

"Oh, your majesty," said his tailor bluntly and without rising, as he should have done, "that's all right; you see, these were made loose because I know your majesty's great appetite, and I felt that I should leave room for your majesty's dinner."

"You're a clever knave," laughed the lion. "I hadn't thought of that." And off he ambled.

"Ha, ha!" said the chimp when he had gone; "that's a lie I told his majesty; but, you see, some people are easy, and all you have to do is to fool them a little." And he went on stitching and singing to himself the refrain, "Under the Bamboo Tree-e-e-e."

Just then the lion appeared. "Look here," he said sharply, "you left these trousers wide to make room for dinner; it has occurred to me that you ought, therefore, to furnish the dinner to fill them." "Saying which he set upon Mr. Chimp and ate him up. The trousers then fitted tight."

It doesn't pay to fool every one.—Atlanta Constitution.

BOODLERS QUAIL AT PRISON BAAS

FEW RESIST THE PRESSURE

Public Officials Guilty of Accepting Bribes Weaken When Given Alternative of Wearing Stripes or Laying Bare the Plot.

New York, March 30.—"To catch the debauched public official or his debaucher I would take up the wildest rumors, and pursuing this, witness by witness, at last reach the source. There always is some public official in whom the instinct of self-preservation is so strong that he will tell the truth in preference to wearing the stripes of a convict."

This, summed up, is the plan of campaign that Gov. Joseph W. Folk of Missouri would follow in New York to unmask the alleged corruption in Albany. As expressed by himself, it was the system that made him a terror to corruptors in his native state and pointed his way to the highest office in the state.

The attention of Gov. Folk was called to the daily publication in the newspapers of legislative or aldermanic hold-ups of the "Black Horse Cavalry" in Albany, of the power of the lobby, of the sudden cessation of opposition to important franchises after months of bitter fighting.

Outlines His Plans.
His plans for the treatment of the conditions were simply investigation, followed by a patient, unswerving, sincere effort to punish the bribe-giver or the bribe-taker. He dwelt with some bitterness on the attitude of highly respectable citizens at the outset of a crusade which might tarnish the names of persons in power, in referring to the hue and cry against any such action on the familiar ground that it would besmirch the fame of the state or city. But he supplemented this with an expression of thankfulness for the innate honesty of every community, dormant at first, but when aroused a mighty weapon for good.

Permanent cure for "boodling" and bribery, he declared, lay in the honesty of the citizens, but much aid could come from the passage of laws similar to the gambling law of New York state, which grants immunity to one of those who confess.

"If I were prosecuting attorney," explained the governor, "and you told me that another man had said to you that a third man had received \$10,000 for his vote on some measure before the board of aldermen I would have you before the grand jury to testify to that fact."

Would Force Testimony.

"Then I would put you in an adjoining room and send for the man you said told you that. If he denied having told you I should bring you out and confront him with you and let him take his choice between a prosecution for perjury or a full disclosure of his knowledge in the premises."

It is usual upon being confronted in that manner that the witness would rather take his chance of telling the truth than being prosecuted.

"After he had been compelled to say in the manner indicated that the particular member of the board had told him he had received \$10,000, that member of the board would be brought in. In case of his denial he would be confronted in like manner."

"Once an official is compelled to turn state's evidence there is an opening wedge that will lead to the exposure of the whole scheme of graft, if it exists."

LAWYERS PURSUED BY THE LAW

Disbarment Proceedings Against Indiana Attorneys Being Pushed.

Bloomington, Ind., March 30.—East and East and J. E. Honley, attorneys of this city appointed by Judge Wilson of the Monroe circuit court to prepare charges against and prosecute in impeachment proceedings an action to disbar certain public officers and attorneys, have filed impeachment proceedings on behalf of the state of Indiana against Robert G. Miller, prosecuting attorney. They also filed proceedings to impeach Claude G. Malott, mayor of Bloomington, and also an action to disbar Arthur M. Hadley, an attorney of this city. These proceedings are the outcome of affidavits made by J. M. K. Thresher and David Guy that they had settled a criminal case by the payment of money.
